TWEED'S BAIL BONDS.

THE ATLANTIC CABLE.

Cotton Statement.

NEW YORK, November 17, 1871.

FISK-MANSFIELD.

A number of prominent Wall street brokers will be called to testify concerning Fisk and Gould in the Mansfield suit to-morrow.

Various efforts to serve the papers in the Mansfield-Fisk case on Peter B. Sweeny have failed. Sweeny is keeping himself out of the way.

In the Fisk-Stokes case to-day arguments were heard before Judge Brady on the motion to show cause why Judge Pratt's stay of proceedings on the order removing the trial to New York county should not be vacated. The injunction is so far vacated as to allow Miss Mansfield to talk to counsel.

TWEED'S BAIL.

Jay Gould has withdrawn from Tweed's bail bonds. His withdrawal is due to his unwillingness to be examined as to his sufficiency by the counsel for the prosecution, which was to have been demanded. It was their intention to prove that the legal claims against Gould probably counterbalanced the amount for which he was pledged. Three friends of Tweed's were substituted for Gould. These are Jacob Vanderpool, no occupation; Charles G. Cornell, registrar, and Charles Devlin, contractor. The justification is set down for November 23d. It is expected that within two days Tweed's counsel will ask for an extension of time in which to file an answer.

EXPLANATORY.

Marshall O'Roberts writes a letter to the *Times* stating that he was misled by false accounts furnished him by the Ring members of the City Government last year, into signing certificates and endorsing the correctness of the financial books of the city. He says that at the time neither he nor Messrs. Moses Tayloy and J. J. Astor had any idea that the Controller was a cheat and a fraud, and takes much blame upon himself for falling into such a snare.

A DEMURRER.

The counsel of Tweed have served on Chas. O'Connor a demurrer, that the plaintiffs have not the legal capacity to sue in the action; that the complainant does not state sufficient facts constituting a cause of action; that the complaint is defective by not including the Mayor, Aldermen, Supervisors and commonalty of the city as defendants. The point raised is, that there is no legal right of the people maintained in such an action.

THE ATLANTIC CABLE.

The official organ of the Western Union Telegraph Company states that the British Government has not commenced negotiations for the purchase of the Atlantic Cable, and no London syndicate have paid a dollar for the privilege of purchasing the cable within nine days. It says the proposition to purchase the New York, Newfoundland and London Telegraph, whose lines are in Newfoundland, has not been entertained.

COMPARATIVE COTTON STATEMENT.

The total receipts from September 1st, 1871, are 671,054 bales; same time last year, 707,456. The total exports from September 1st, 1871, are 267,963 bales; same time last year, 358,150. The stock at all United States ports in 1871 is 326,712 bales; last year 331,008; at interior towns, 1871, 53,579; last year 61,244; at Liverpool, 1871, 539,000; last year 420,000; American common afloat for Great Britain, 1871, 94,000; last year 109,000.

RECEIVER APPOINTED.

The Guardian Savings Institution, in Chatham street, founded by its President, William M. Tweed, was unable to meet the demands of its depositors, and to-day Judge Barnard appointed a receiver. The "Public Administrators' Fund," $56,000, arising from property of persons dying without heirs, was in the same institution. The Comptroller has issued a warrant to remove it to the Union Trust Company, and to-day the warrant was returned.

INVESTIGATION ASKED.

The City Register asks the Board of Coroners to investigate the cause of the deaths at Vanderbilt's depot, on Forty-second street. He says that only two deaths have been reported. While seven have been killed, only one of the seven said to have been killed has been found. Neither the coroner or police know how the burial permits of the other six cases were obtained.

VACANT OFFICES.

Mayor Hall has stated that he had Tweed's resignation in his possession, conditional upon the appointment of a gentleman selected by himself. Hall also says that he has tendered the appointment of the successors to Sweeny, Hilton and Fields as Commissioners of Parks to Comptroller Green, considering that as the Democratic reformers won the victory, they were entitled to fill the offices and direct party affairs.

POLITICAL.

The *Tribune* editorially says that the choice of localities for holding the National Republican Convention for 1872 is narrowed down to Cincinnati and New York. The Executive Committee will make the selection on the 11th of January.

A Colored Republican General Committee was formed here last night.

OBERLIN.

Congregational Council.

OBERLIN, November 17.—The third day's session of the National Congregational Conference opened to-day with a larger attendance than any previous day. General business occupied the first hour of the regular session, in which the Committee on Credentials reported many additional names, and recommended that E. Fairchild, honorary member from Kentucky, be admitted to the full privileges of a regular delegate.

The Committee on Finance chosen consists of A. C. Barston, of Rhode Island, K. A. Farnsworth, of Massachusetts, and Douglas Putnam, of Ohio.

The rest of the forenoon was occupied with debate upon the name of the organization, the question being taken up where left off at the close of yesterday afternoon's session. After a long discussion, in which four names were moved and supported, viz.: Conference, Council, Union, and Association, finally, upon motion, a ballot was taken on all the names together, the one having a majority over all the others to be adopted, and in case no one had such a majority, the two having the highest number to be voted upon, which resulted in "Council" having the highest in the first choice and "Union" the highest in the second choice. These two were submitted for final vote. After an excited discussion the vote resulted in favor of "Council," this receiving 100 votes, and the choice was afterwards made unanimously by a special vote. "National Congregational Council" thus stands as the permanent name of the organization.

The Council adjourned till the afternoon session immediately after the final vote was taken.

The only work left in the afternoon for entire completion of the organization of the Council, was the final adoption of the constitution and the election of officers.

Fourteen members were nominated for Moderator. The first ballot resulted in the election of Rev. Wm. Ires Buddington, of Brooklyn. Hon. E. B. Halton, Moderator *pro tem.*, invited his newly elected successor to come upon the stand and enter upon the duties of his office.

Amid cheers of greeting Rev. Buddington came up and addressed the Council in a few well selected and appropriate words. He said he desired to tender his thanks to the body for the honor which it had conferred upon him; that he would withdraw from accepting such a responsible position but for the fact that he had made it his determination to be always completely at the service of the people. In regard to the name which had been chosen, by which the body should henceforth be known, he said that it was nothing strange that it had required so much time to determine upon what it should be. He congratulated the members upon the name which had been finally chosen, to be handed down from ages to ages to come as the name of the body; and prophesied that it would always be as free from stigma as are the words of free will in our theology. He said that he felt a certain awe upon becoming the presiding officer of the organization, the greatness of whose influence upon posterity no one can tell. He would pray to God to take possession of this and all successive Councils: until he shall himself reappear upon the earth. He was greeted with great applause at the close of his remarks.

He was followed by Hon. E. B. Halton, who spoke a few words on leaving the position of Moderator *pro tem.*

The Council then proceeded to complete the organization by the election of the other officers, which was done without other delay than balloting, with the following result: Vice Moderators—General O. O. Howard, of Washington, D. C., and Rev. Dr. Atkinson, of of Portland, Oregon; Secretary—Rev. A. H. Quint, D. D., of New Bedford; Convention Register—Wm. Moore, of Berlin; Convention Treasurer—Chas. G. Hammond, of Chicago.

A committee was then appointed to draw up a code of by-laws, consisting of A. H. Guent, W. G. Merryman, H. C. Bartlett, S. Holmes, O. O. Howard, W. J. Buddington and A. C. Boston. The entire work of organization was thus completed and the National Congregational Council made an active and distinct body.

An appropriate prayer was then offered and a hymn sung, after which the half hour remaining before the time for adjournment was occupied in hearing short remarks from delegates of foreign churches. Rev. Wm. F. Clark Guelph, of Ontario, and Rev. F. H. Montlivo, of Toronto, Canada, spoke, as also did Rev. Mr. Helwig, representative of the General Synod of the Evangelical Lutheran Churches.

A provisionary committee to make the necessary preparations for the meeting in 1874 was then appointed, consisting of Rev. H. M. Stoors, Rev. Mr. Bieckford, Deacon Ezra Farnsworth, President Andrews, President Merryman, John B. Page, and Rev. J. E. Dwinell.

The afternoon session then adjourned.

In the evening the First Church was again crowded, able papers were read as follows: Foreign Missions, Rev. Dr. Clark, of Boston; Church Extension, President Merryman, of Ripon; Work of the American Missionary Association, Rev. M. E. Stricby, of Newark; Work of College Societies, Rev. H. H. Butterfield, of Boston.

The exercises were interspersed with music from the choir and the usual religious exercises.

INDIANA.

Murderers Lynched.

INDIANAPOLIS, November 17.—The three negro murderers of the Park family, near Henryville, Indiana, were taken from the jail at Charlestown, at two o'clock this morning, by a mob of one hundred and fifty persons disguised, and hung about half a mile from the town.

The Vigilance Committee at Charlestown numbered about seventy. They came to the jail about one o'clock A. M. and demanded the keys of the jailor and sheriff, which were refused. They then took blacksmith tools and tore open the jail doors, cut the hinges and broke the locks, and placed ropes around the necks of the prisoners and took them one and a half miles from town on the Lexington road. Taylor and Johnson were hung on one tree and Davis on another. The Vigilance Committee all wore white masks.

LOUISVILLE, November 17.—Squire Taylor, Charles Davis and George Johnson, the negroes charged with the murder of the Park family, were taken out of the jail at Charlestown, Ind., about two o'clock this morning, by a mob of about forty persons, masked and disguised, thirty-three of whom entered the jail and the rest stood guard in the streets. The negroes were hung in the woods about two miles from the town. When found Taylor had been stripped naked and burned in a number of places with brands from a fire the mob had kindled probably with the intention, as expressed by them, of roasting them alive. It is strongly intimated that the negroes made confessions before death. Taylor and Johnson were hung on the same tree, and Davis on another tree some hundred feet distant. The mob was made up of citizens from the vicinity of Henryville, Ottis county, and Charlestown. The Coroner's inquest, held today, rendered a verdict that they came to their death by violence, being hung by parties unknown. The negroes had not been indicted by the grand jury, and the citizens feared they would escape punishment. No one attempted to interfere with the mob, who broke in two cells with hammers and chisels, but the Sheriff could not keep them out.

LATER.

It is now known that the negroes hung for the Park murder all made a confession to Ku-Klux, corroborating Johnson's first story. Taylor acknowledged that he did the killing, while Davis held the light and Johnson watched the front of the house.

There were only thirty three persons at the jail, but one hundred in the woods where the hanging was done. A box containing some of Park's clothing, bed clothing and sewing machine, had been shipped to Taylor's son-in-law, Chicago. Davis was sixty-five years of age, Taylor sixty-six, and Johnson near forty. During the investigation the fact was exposed that Taylor's son John murdered a crippled negro named Jack in Charlestown about two years ago, shooting him at night through the window. Taylor also confessed that he knew his son committed the murder. In the house of Taylor a considerable quantity of stolen goods were found, including fine clothing.

HYDE PARK, PA.

Town Sinking.

NEW YORK, November 17.—A special dispatch from Scranton reports that the caving in of a mine at Hyde Park has created great excitement. The first shock was felt about three o'clock on the morning of the 16th inst., when the people fled terror-stricken from their dwellings. The caving of the ground, which occurred over the Oxford mine, caused a settling in of the buildings overhead of some two feet in the area of ground, and covered in all about twenty acres. The damage to property is over thirty thousand dollars. Immense fissures were made in the principal streets and avenues, and many of the houses have to be pulled down. The postoffice has sunk some eighteen inches and still continues to sink. The whole town is in danger, as the ground is still settling. The mines are deserted at Scranton. The various streets are crowded by people discussing the situation. The vein which caved in is known as the Diamond vein, and is two hundred and forty feet below the surface. It was worked out ten years ago previous to its purchase by the Delaware, Lackawanna and Western Company.

The letter in question is very positive and specific. It says the plan is to furnish such negroes as are dangerous in every community with means of getting away, requiring them to go north of the Ohio river. The Society is opposed to Ku-Klux. It claims that it has the right, in the absence of local justice being denied by the General Government, to get rid of its murderers and marauders by money.

In a double leaded leader the *Courier-Journal* discourages the movement as revengeful and dangerous, and advises in its stead education and kindness to negroes.

TENNESSEE.

Legislative Proceedings.

NASHVILLE, November 17.—The lower branch of the Legislature to-day fixed the rate of taxation at forty cents on every one hundred dollars' worth of property. The present tax is sixty cents. The bill has not yet matured, and it will have to go to the other branch.

A CHANGE.

General John T. Wilder, formerly of the Federal army, has been elected mayor of Chattanooga. Ten of his brigade of mounted infantry fired the first pistol shot into that place during the war. He is now engaged in developing the resources of that section of Tennessee, and enjoys the confidence of all parties.

BUFFALO.

Wrecked Sailors.

BUFFALO, November 17.—The crew of the bark P. C. Sherman, lost off Long Point, arrived here to-day. They drifted across the lake in an open boat for twenty hours, exposed to the cold and heavy a sea. The stewardess died on this terrible passage from exposure.

CHICAGO.

Election Returns.

CHICAGO, November 17.—The majority for John Beveridge, Republican candidate for Congressman at large, in Cook county is 5,417, and his majority in the State about 19,500.

BRIEF TELEGRAMS.

—At Hartford, Conn., the Putnam Fire Insurance Company have filed an application in bankruptcy.

—The reported meeting of Governor Hoffman and the Democratic Senators at Troy, N. Y., is denied.

—The trains on the Eastern Railroad are not expected to cross Hampton (Maine) Flats for a day or two yet.

—The late storm swept away about 50,000 feet of lumber and 200 cords of wood at Oquienquit harbor, N. H.

—Henry Montcastor, while bringing a load of acid into Mansfield, Ohio, Thursday evening, was killed by his team running away.

—A fight among the hands in a chain factory in Trenton, N. J., on Thursday, resulted in the killing of John Bradley and the wounding of several others.

—The store of H. P. Leibee, at Middletown, Ohio, was entered by burglars on Thursday night, and twelve hundred dollars' worth of silk and lace goods carried off. No clue to the robbers has yet been obtained.

—General Sherman recently stated to a reporter that the Wisconsin soldiers were conspicuously brave during the war, and that no other State done more work. He thinks the Union men of the South were never a very fine class; that many of the ex-Confederates should have been appointed to Governmental positions.

—A Raleigh (North Carolina) dispatch of the 16th says that fifty-three men were brought there on Thursday from Rutherford and Cleveland on the charge of Ku-Kluxing. A United States Commissioner named S. Clogging recently shot a prisoner for talking saucy to him. Several more arrests have been made, and out of two hundred, only sixty-five were retained for trial.

—A deputy United States Marshal in endeavoring to arrest Joel Baker, charged with dealing in counterfeit money at Celina, Mercer county, Ohio, was attacked by two brothers named Brandon, who swore Baker should not be taken from Celina. The Marshal was severely bruised and cut, but succeeded in securing the prisoner, and brought him to Cincinnati on Thursday evening. It is said prominent citizens of Celina hold that their Probate Court is the only jurisdiction to which their citizens are amenable.

RAILROADS.

BERLIN AND BUFFALO VALLEY.

The Somerset, Pa., *Herald* says: The contractors, Messrs. Yutzy, Scott & Co., have about completed the graduation, bridges, &c., of the entire eight miles, ready for the cross-ties, in the remarkably short space of time of ninety days. The Directors having doubts of so speedy a completion of road, deferred the purchase of the iron until after the unfortunate Chicago disaster, when the stringency of the money market made it more difficult to negotiate for iron, and winter so speedily approaching, the laying of the track will be deferred till early spring.

THE NORRISTOWN ROAD.

The Nashville *Union and American* of Wednesday says: "On Monday the purchasers of the Cincinnati, Cumberland Gap and Charleston railroad, otherwise known as the Morristown road, took possession and assumed control of its operations. Captain Jo. Jaques, of the East Tennessee, Virginia and Georgia road, is superintendent of the branch line under the new regime. The purchasers, Messrs. Wilson and McGhee, it is understood, represent, along with themselves, the Pennsylvania Railroad Company, whose design is to complete the connection as soon as possible with the North Carolina line of railway, thus opening another new through route from Morristown (forty-two miles east of Knoxville) to Norfolk."

NORTHERN PACIFIC.

The St. Paul *Press* of the 12th says: "Colonel John S Loomis returned last evening from Dakotah Territory direct, where he has been spending some months in the interest of the Northern Pacific Railroad, of which company he is the Land Commissioner. Work is being rushed forward with unabated vigor from Red River to the Cheyenne, and the grading for fifty miles will be accomplished within a few weeks. There is to be no let-up whatever in the construction of this gigantic continental railway, and in order to facilitate progress, the company officials and contractors are going into snug winter quarters on the Cheyenne and James Rivers and other points, where they will be furnished with all needed supplies, in order that work can be pushed ahead during the winter, whenever the weather is at all favorable for the purpose. Contracts have been let all the way to the Missouri, near Fort Rice, which point will be reached during next summer."

THE STATE.

UNIONTOWN still collects for the sufferers by the recent great fires. Quite a large sum of money and several boxes of clothing have already been forwarded from there.

THE Washington *Review and Examiner* says: The Directors of the Poor have determined to erect a new alms-house, near the site of the present building, during next season. J. W. Kerr, architect, of Pittsburgh, is now engaged in preparing a plan and specifications.

THE Tyrone *Herald* says: We have had two days' rain, and the watermen rejoice thereat. 100,000,000 feet of logs and $250,000 worth of square timber in rafts lay in Clearfield Creek, ready for the freshet, and business generally in the wooden regions had become a drag for want of money, which can only be secured by the sale of timber.

THE Uniontown *Standard* says: On last Monday morning, about six o'clock, the boilers in the engine house of the Uniontown Steam Mills exploded. The mill had not yet been started, and Mr. E. B. Reynolds, the engineer, was about to oil some of the machinery, when the explosion occurred. Mr. Reynolds was very badly burnt and cut on the face with flying brick and hot ashes. His clothing also caught fire, burning his body some. Although his injuries are very severe, they are not considered fatal. He was knocked senseless, and had it not been for Mr. Swearingen, the miller, who had just left the engine room, running to his assistance, he would most undoubtedly have been killed, as after Mr. Swearingen pulled Reynolds out, the roof of the engine house fell in. The engine house was demolished. The boilers were thrown out of their position and the furnace shattered. The large stack, which stood at the end of the engine house, was not injured any. The windows in the basement of the mill were broken by the concussion. Otherwise, the mill is not injured. What was the cause of the explosion is not known. The boilers had plenty of water in them, as they had been filled on Saturday evening. They were put in the engine house about eight years ago, but were second-hand then. They have been repaired since, and were considered sound and safe.

RELIEF SOCIETY'S OPERATIONS.

Statement of the Executive Committee of the Chicago Relief and Aid Society of Their Operations thus Far.

Mayor Brush yesterday received a copy of the following report of the work of the Relief and Aid Society of Chicago, copies of which have been sent to the Chairman of Relief Committees in all the cities.

CHICAGO, Nov. 7th, 1871.

The Executive Committee of the Chicago Relief and Aid Society are aware that the public desire to know the amount of the subscriptions to the relief fund. It is impossible at present to give a detailed account of the amounts, for the reason that purchases made in some cities, invoices of which have not yet reached us are to be deducted from the gross amounts of the subscriptions. The previous report of our Treasury stated the amount actually received at that date. We are now able to give the amount received to this date, November 7, and the probable amount of the entire subscriptions, with approximate accuracy. We have actually received two million, fifty-one thousand, twenty-three dollars and fifty cents. ($2,051,023.56.)

Arrangements have been made by which the Society draws five per cent. on all balances in bank. So far as our present information goes, and we think we have advices of all sums subscribed, the entire fund will vary but little from three million five hundred thousand dollars. ($3,500,000.) This includes the funds in the hands of the New York Chamber of Commerce, amounting to about $600,000, and the balance of the Boston fund, about $240,000 both amounting to $840,000 not yet placed to the credit of this Society, but which may undoubtedly be relied upon to meet the demands of the future. As to our disbursements, we can only say that we are at present aiding 60,000 people at regular distributing points. Some of this vast number we relieve in part only, but the greater portion to the extent of their entire support. This is in addition to the work of the special Relief Committee for people who ought to be sent to the general distributing points, and which is largely increasing upon our hands. It is only in addition to the expenditures of the committee on existing charitable institutions.

The great matter pressing upon the committee is shelter for the coming winter. We may feed people during the mild weather, but where and how they are to be housed—permanently housed—we regard as the serious question. To this end we have been aiding those burned out to replace but comfortable satisfy those who actually favor it.

Let us examine the matter a little. Is there a necessity for a new school house? That is the question which should, of course, take precedence of all others. That the present house is large enough no one will undertake to deny. The only other question then which really has any relevancy is—is it safe? This question is important, for I contend strenuously for safety to the inmates of all houses of a public character—as absolute as intelligent architects can make it. The present house is of moderate height (three stories), with four school rooms on each floor; the different stories are reached by wide stairways, with solid walls on each side; and the youngest children are all taught on the ground floor. Every precaution is thus taken against accidents, whether from sudden panics or any other cause. This narrows the question down to the simple one of, is the house strong enough for the weight which it has to bear? I have been present during exhibitions and examinations in that building, within a year or two, when the whole of the pupils, teachers, school directors and auditors were crowded into the third story, and I can aver, in all truth, that I neither thought of any danger myself, nor did I hear of any one ever hinting at such a thing. Besides, I was a member of the Board during the whole of last year, and I can with equal truth assert that during the whole of that period no question of strength was ever mooted before the Board. When we bear in mind the fact that several of the directors who now favor a *new* house, were then and had been for years on the Board, and constituted the committee which had charge of the building, this sudden alarm of theirs for its safety does seem wonderfully strange and unaccountable.

On the whole, while I feel confident of the entire safety of the structure, yet in deference to what I believe to be baseless fears, I ask of the directors, as a duty they now owe to the people whom they have alarmed for for their children's safety, that they officially designate some gentlemen who are above suspicion, to procure the professional opinion of an experienced architect. Should he certify to its safety, that will end the matter; but if in his judgment it lacks strength, it will be his business to show how to remedy every weakness and make it equal to new. For surely the building art is not so contemptibly low about here as to require the abandonment of a costly brick structure, because a portion of it is *about twenty years old*.

Respectfully yours,
A. F. MARTHENS.

First Ward School House.

EDITORS GAZETTE—I have not heretofore asked space in your columns for anything relative to the First Ward, Allegheny, School. I have read the articles published in your paper favoring the erection of a new building, and also designating the ground for that purpose, but have seen little in them calculated to make converts to the project, or even to houses upon their own, or leased lots, where they can live, not only this winter, but next summer, and be ready to work in rebuilding the city. Of these houses—which are really very comfortable, being 16 by 20 feet, with two rooms, one 12 by 16 feet, and one 8 by 16 feet, with a planed and matched floor, panel doors, and good windows—we have already furnished over 4,000, making permanent homes, allowing five for a family, for 20,000 people, and with the 7,000 houses which we expect to build, shall have homes for 35,000 people. These houses and some barracks, in both of which there is a moderate outfit of furniture, such as stoves, mattresses, and a little crockery, will consume $1,250,000, leaving $2,250,000, with which to meet all the demands for food, fuel, clothing and general expenses, from the 13th of October last—when we took the work—until the completion of the same, which cannot possibly end with the present winter. We may say that particular attention has been paid to sanitary regulations. The entire work in this respect as in others districted, Medical Visitors, Dispensaries and Hospitals provided.

The Committee need hardly say that if the demand should continue as great as at present, the funds would be exhausted by midwinter; but we hope to cut this down very largely as soon as we can get people into houses, so that they can leave their families and find work. Indeed this is being done already. Within a few days we shall arrive at the exact daily expense of food and fuel rations; but the demand, as might be expected, is a fluctuating one. If the weather is good, and men can work, it falls of, if cold and stormy, it at once increases at a fearful rate.

The work has so pressed upon us, night and day, that we cannot prepare a detailed report to the public, but furnish this statement for the purpose of affording an idea of what we have done and are trying to do with an organization necessarily composed largely of unskilled forces, but the only one at hand for the emergency. Within the next ten days we shall be able to give a detailed report of the work as well as of all sums contributed.

WIRT DEXTER,
Chairman Executive Committee.
GEO. PULLMAN, Treasurer.

CHICAGO AND WHEELING.
Additional Testimony
OF THE
EXCELLENT QUALITIES
OF THE
Burke & Barnes'
FIRE PROOF SAFES.
[From the Pittsburgh Commercial.]
One of our bankers who has witnessed the effects of the great Chicago fire on the safes, so-called fire-proof, informs us that a greater part of those which were directly in contact with the fire failed to protect the papers inside—that the safes already advertised as having withstood the fire were in most cases protected by vaults or covered by fallen debris, and thus kept cool. With this being the common result, it was with feelings of local pride that he examined the books and papers of Messrs. Rumsey, Williams & Co., No 28 Chamber of Commerce, *taken from a Burke & Barnes Safe of the old pattern, and found them in a state of* PERFECT PRESERVATION, *though fully exposed to the flames, while expensive Eastern and Cincinnati safes turned out their contents charred and unrecognizable.* There is no reason why our city builders cannot make as good safes and better than those put up elsewhere, and no reason, except *fashion*, that our merchants should go to other cities for their safes.
ANOTHER BLAST FOR THE BURKE AND BARNES' SAFES.
It is not alone in Chicago these safes have so frequently been in actual conflagration and proved themselves to be *fire proof* in every particular, as will be seen by the following:
OFFICE OF WHEELING IRON AND NAIL CO.,
Wheeling, W. Va., October 31, 1871.
Messrs Burke & Barnes, Pittsburgh, Pa.
GENTLEMEN—This will certify that we had in our office when it was burned on the 31st of September last, one of your fire proof safes, and are gratified to say that the safe *proved satisfactory in every respect*, preserving our books and papers as fully as could be expected under the circumstances.
Yours respectfully,
C. D. HUBBARD, Sec'y.

THE imprisonment of Jennings Pigott, editor of the Dublin *Irishman*, will not tend to allay the excitement everywhere prevailing throughout Ireland, caused by indiscreet movements of the British authorities.

WE ARE INDEBTED to Hon. Francis A. Walker, Superintendent of the Census, for a copy of the statistics of the blind, deaf and dumb, insane and idiotic portions of our population; but it is surely incomplete, as the *Post* people are left out of the three latter classes.

LABOR STRIKES are reported at Sheffield, England. The day for oppressing the operatives of Europe is evidently gone. The recent victory of the workingmen at Newcastle is likely to result in the adoption of the "nine hour law" throughout the manufacturing districts.

THE Boston *Post* defends Catacazy, the *Post* is Democratic and seems to try to be as consistent as possible under the circumstances, hence its defense of the Russian Minister. But it has made a mistake, this time, as Mr. Catacazy was not appointed by Grant or elected by the Republican party, and opposition to them is all the *Post* aims at.

THE Providence *Journal* warmly urges that the Republican party shall nominate the ticket of 1868. It says Grant and Colfax are names familiar to the people, and the two have agreed fully and cordially throughout the administration. There is a charm in the old nomination; and it will save a heap of money in the shape of flags and transparencies and big type.

HENCEFORWARD, Washington, besides being the capital of the United States, is to be the paradise of laundresses and lodging house keepers, for, hereafter, no government employe who is unable to produce the receipts in full of the ladies who feed and wash him is to be considered worthy of retaining place or office under government. Surely we may shout: great is Civil Service Reform and Curtis is its prophet! And surely this is one of the rights of women, which all must rejoice to see secured to them.

THE *Golden Age* sapiently remarks:

"John E. Johnston, formerly a pupil of Dr. Doellinger at Munich, but lately settled over the Unitarian Church in Milford, N. H., has applied for orders in the Episcopal Church of this diocese. Many other Unitarians would do likewise but for the doctrines with which that Church is hedged about and the ecclesiastical spirit she cultivates."

To which we might add that Mr Johnson's former teacher, Dr. Doellinger, would be a Jesuit if it were not for the *doctrines* of that body, and we believe that it is the same reason, only, which deters Chapin and Beecher and Bishop Potter from being Confucians or Pagans.

MRS. CADY STANTON has discovered a way to defeat President Grant. Her plan is to run an electoral ticket, composed of men of acknowledged integrity from every State, with no platform at all except opposition to Grant. Those men, when elected, are to meet in convention and nominate a candidate, after which they are, according to law, to meet in their respective State capitals and cast their votes for the nominee of the convention. This is the way, Madame Stanton thinks, to bring on the millenium and give the vote to women. When a man invents a flying machine, or discovers the secret of perpetual motion, he believes thoroughly in his contrivance, and we suppose this lady has the same sort of abiding faith in her plan.

IT HAS already been announced that Australia has adopted a protective tariff of twenty per cent. *ad valorem*, on all goods hereafter imported. This is the hardest cut that English free tradeism has ever received. To think of one of her colonies, deliberately shutting her gates against British manufactures, after said colony had been nourished in infancy, and guarded with maternal care through its youth, by the kind parent, is sufficient to induce that parent to mourn through all her remaining days. Free trade is undoubtedly good for England, because she has much to sell and little to buy. She once protected her own labor from outside interference, but now having placed it completely under the iron heel of tyranny, she can manage it without protection through tariff duties. Not so with Australia or America; our artisans can read, write and think, thanks to our free institutions, and demand proper pay for work done, which is given. The action of Australia proves that whilst free trade is undoubtedly good for England's surplus goods, it does not follow that it is equally good for herself, and this is the argument of the tariff adherents, that law which will enrich one, may impoverish another.

WE HAD supposed that the ridiculous story, started by the *Post*, that Mr. Morgan and his friends were endeavoring to have the full municipal vote polled at City Hall needed no contradiction by us; that no intelligent citizen would for a moment believe it, but it appears that such is not the fact, and we are therefore obliged to say that the report is a mere fabrication, and no prominent Republican ever heard of it, until it appeared in the *Post*. It is on a par with the other rumor, that a general jail delivery was to be had in order to get votes for the Republican candidates. As it is well known that nine-tenths of the unfortunate occupants of the jails, workhouses and penitentiaries vote the Democratic ticket straight, it would surely be impolitic for our party to look to those quarters for support. But candidly, cannot our Wood street neighbor get above such paltry and ridiculous stories, and discuss the Mayoralty question in a dignified and honorable manner? Must it always depend on attempts like these, to pander to the ignorant prejudices of the low and vulgar? There is about as much prospect of Blackmore's election, as there is of the *Post* telling the truth, and everybody knows that prospect is pretty slim. The best of it is, the *Post* knows this to be the case, as Blackmore gave up all hope of success long ago.

A NOVEL case has been decided in a Cincinnati court. John S. Robinson brought suit for damages, against one Daniel Sortman, claiming $1,000, for the infliction of a horse whipping on the person of the plaintiff by the defendant. Robinson was a man inclined to drink and neglect his business, and agreed with Sortman, in whose employment he was, that if ever he got drunk again, he would "stand and take a horse whipping" to be administered by the defendant in this case. Sortman trusted him, and Robinson shortly went off on his periodical spree, during which he destroyed a new suit of clothes furnished by the defendant, Sortman, and also completely demolished the latter's buggy, by permitting his horse to run away with him and it. Sortman, according to his contract administered the whipping in a judicious manner, not on the head, but as the court held, in the proper place, but Robinson failed to fulfill his bargain "to stand and take," in fact he tried to run away, but Sortman detained him, hence the suit for damages. The Court held that the contract, firstly, was not a legal one, and secondly, was not compulsory on the part of either; therefore when Robinson attempted to run, and was restrained by Sortman the latter was guilty of a misdemeanor. The jury found for the plaintiff in the sum of $75, and, we suppose he can now drink and get drunk with impunity.

TAX THE LUXURIES.

The Chicago *Tribune* (intensely free trade,) complains that forty millions of people are taxed upon their clothing, by the present tariff, and finds fault with the Senate Finance Committee for considering the propriety of reducing or abolishing the tax on tea and coffee; giving as a reason therefor, that the latter is the "least burdensome of all taxes." It says:

"The Senate Committee on Finance, and other aspiring statesmen, have tears of compassion for the man who pays 25 cents annually for tax on coffee, but have no sympathy for the man who pays 70 cents tax on every dollar's worth of clothing worn by himself and family."

This is a fair sample of the deceitful sophistry cunningly used by such journals, and called argument. This is a specimen of the deception which is being used throughout the west and south, and which is having its effect upon such minds as are unwilling to look into the matter, or incapable of understanding such subjects when looked into. In the first place the statement is erroneous, forty millions of people in this country are NOT taxed on their clothing, by the tariff, for this would comprise every man, woman and child in the United States, and surely the *Tribune* would not maintain that all of these wear imported French broadcloth and fancy silks.

Secondly—for the sake of the argument suppose they do, for we *will* admit, that so prone is the race to adorn the person in gay and elegant attire, that entirely too much French millinery and toggery is usurping the place of a plainer and more becoming economy in dress. Yet they are not obliged to submit to such taxation, they do not necessarily adopt the imported fabrics to assist in adorning the person, it is done wholly from choice, and in the face of the fact that goods of domestic manufacture are to be had for far less money, and of styles far more suitable to our Republican notions of simplicity and propriety in dress. The tariff, therefore on imported clothing, such as fine cloths, poplins and silks, is a tax on unnecessary luxuries; luxuries which the great mass of our population do not indulge in, and none of whom are compelled to indulge in.

But how is it with the duty on tea and coffee, which the Republican and tariff portion of the finance committees of Congress propose to abolish? This is peculiarly a hard tax; it falls upon every citizen, the poor as well as the rich; it is a tax on necessary articles of food, which all are obliged to use. The free traders say this tax, because it is so small, might remain, and that on imported broadcloths, and other articles of useless extravagance should be removed. This is the plain statement of the position of the *Tribune*, stripped of its verbiage and deception. Is it not outrageous? We say put all proper taxation on luxuries, such as silks, fine cloths, liquors, tobacco, gewgaws, laces, fancy goods, etc., and let the *necessary* articles of food and clothing be free. So satisfied are we of the justice and equity of this system of taxation, that did we have our way, we should abolish all internal taxation except that on foreign delicacies and domestic luxuries. We are amazed that any independent journal of intelligence should advocate the views, which for the first time have appeared in the columns of our otherwise excellent cotemporary. Free trade doctrines are certainly as hard put for argument as they are generally pernicious, when their advocates oppose the removal of the tax on tea and coffee. Has the *Tribune* not made a mistake? In view of recent occurrences, would it not be well to remove the tax from the *food* of its citizens? as they surely will not require, for some time to come, gorgeous outfits of silks, broad cloth and laces.

RELIGIOUS INTELLIGENCE.

The first of the series of Conventions, to promote the interests of the Foreign Mission work, under the direction of the Presbyterian Church, held some days ago in Philadelphia, was a grand success. The services were full of life and spiritual, and the presence of distinguished ministers from contiguous places, and several returned missionaries, added much to the interest and profit of the gathering. Part of the services consisted in the discussion of the following topics: 1. "How to instruct and interest the active membership of the Church in the great work of missionaries." 2. "How to revive and sustain the Monthly Concert, and increase the spirit of prayer for missions generally." 3. "How to develope and organize woman's work in all its churches, and how to direct its relations to the Board of Missions." 4. "How to enlist a greater number of laborers, male and female, who will consecrate themselves to the foreign work." Batavia holds a Missionary convention this week, and New York is to have one next week.

The American Bible Society donated five thousand dollars worth of bibles for immediate distribution in Chicago. Bibles will be donated to every person who lost their bibles by the late fire. The donations will be made through the Young Men's Christian Association of that city.

In Kentucky the mania for organizing union churches in the rural districts has reached a point which is embarrassing to regular denominations, in carrying forward their work systematically. At the session of an ecclesiastical body, in a wealthy section of country, reports showed that in addition to the churches held wholly by the denomination, there were enumerated five *halves*, five *quarters*, and five *thirds* of churches.

The *United Presbyterian* thinks the clamor for short sermons should not assume the arbitrary type some require, uniform brevity of time. While it argues there is not the necessity there once was for lengthy sermons, owing to the supply of printed sermons and religious knowledge, yet there are some subjects which demand longer time than others, and no limit should be fixed. It claims the pulpit has its rights in this matter as fully as other professions. The effort to regulate the time of prayer in devotional exercises, and the conduct of Sunday Schools, by sharp discipline, is not favored by many persons, and needs looking after, lest these meetings are rendered and made less useful than formerly.

According to the *Evangelist*, an authority unquestionable, there are four Presbyterian churches in New York city, each one of which spends more in the salary of its pastor, support of the choir, etc., than it costs to conduct the whole business of the Presbyterian Board of Foreign Missions, which extends its operations to all parts of the earth.

Rev. J. Hyatt Smith, the Calvinistic Old School Baptist, who has open communion at his church in Brooklyn, being asked by a troubled brother how he invited folks to the Lord's Supper, says he doesn't invite them at all; he simply says, "Supper's ready."

The fifth annual meeting of the Evangelical Lutheran Church, composed of delegates representing churches who do not acknowledge the General Synod, met at Rochester, N. Y., recently. Delegates were present from eight Synods, and Synod of Canada. The new Norwegian-Danish Augustana Synod was also represented. Rev. Dr. C. P. Krauth, formerly of this city, was re-elected President. Among the most important features of the Council is the discussion of doctrinal questions. This body represents the conservative body of the Lutheran Church in this country, which adheres unswervedly to the doctrines of the Augsburg Confession and the ancient services.

The Presbytery of Redstone, at its late meeting in West Newton, took strong ground on the subject of Temperance, denouncing the manufacture and sale of alcoholic stimulants, and the renting of houses for such purposes or endorse licences that legalize it.

During this week the sittings of the General Missionary Committee of the Methodist Episcopal Church, commence at New York. At this important meeting, the Mission work, Foreign and Domestic, of the entire Church, will be carefully reviewed, and the amounts fixed to carry forward the work next year. The appropriations made by this body are usually raised by the churches during the coming year.

The third General Conference of the German Baptists in America, was held in New York, recently. Among the important matters before the body, related to their publishing and educational interests, and also the establishment of a Baptist Orphan Asylum for Germans, at Louisville, Kentucky, and an Old People's Home, at Mouse, Illinois. The statistics show that the aggregate baptisms were about four hundred.

The excellent wife of the venerable Senior Bishop Morris, of the Methodist Episcopal Church, died at Springfield, O., a few days since. She had been a great sufferer for years.

Bishop A. C. Coxe, the talented Diocesan of Western New York, in his discourse before the Protestant Episcopal Sunday School Association of New York, from the text: "Now, Samuel did not yet know the Lord," took the ground that there is such a thing as infantile piety, that it is precious in the sight of the Lord Jesus Christ, and that to nurture and encourage it is the duty of every one who comes in contact with children.

The conflict in the Roman Catholic church in Hudson, New York, seems now to be in a fair way of adjustment. The conflict between the priests and the people has been for some time.

WHAT DYSPEPSIA MAY END IN.

Indigestion is not dangerous, say the faculty. Perhaps not in itself, while it remains mere indigestion; but look at the consequences to which it may lead, and often does lead when it becomes a chronic diseases. A spark of fire is a small thing. A pressure of the foot will put it out; a breath will extinguish it. Yet it may fire a powder mill, or kindle a flame that will consume a city. In like manner indigestion may produce gastritis, cancer of the stomach, congestion of the bowels, apoplexy, liver disease, and many other dangerous maladies. Is it not wise, then, to check it in the germ? Nothing is more clearly and indisputably established than that Hostetter's Stomach Bitters will eradicate dyspepsia in all its stages. The true policy, however, is to extinguish it in the first stages with this wholesome, powerful and infallible tonic and alterative. It is easier to quench a spark than a flame, and it is easier to cure dyspepsia when it is first developed, than when it has made headway by neglect, and becomes complicated with other ailments. There is not the shadow of a doubt that the bitters are as directly antagonistic to dyspepsia as water is to fire. There are thousands of cases on record proving this fact. The remedy is safe and agreeable. All the liquors of commerce prescribed as stimulants, leave a sting behind. But the sting is taken out of the spirituous basis of this great remedy by vegetable medication, and, moreover, the stimulant thus medicated is of exceptional purity. Of all tonics taken as safeguards or remedies for fever and ague, bilious remittents, and other fall epidemics, it is the only one that can uniformly be depended upon.

Ayer's Hair Vigor,
FOR RESTORING GRAY HAIR
To its Natural Vitality and Color.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray: either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of women and men. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

Finance and Trade.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, November 17, 1871.

The local money market continues stringent with little if any abatement in the demand for loans. The banks are some of them paying out their half yearly dividends, but the amount thus sent out will have no appreciable effect upon the market. Indeed, for the present the necessity of withholding loans until these payments are over is acting adversely upon borrowers. The river is fortunately at a stage which will let out a large number of tows and we may reasonably expect some relief from that quarter for the coal interest. The high water, on the other hand, will bring large amounts of both oil and iron to the market, and thus deplete the money market faster than we shall be able to get returns for coal. Any marked change towards easier money need not be expected for some weeks to come.

There is but little doing in local stocks. It is evident that the major part of our bank stocks, and other desirable investments are but slightly held by business men, or at times like the present, when money is worth from 10 to 12 per cent. they would be more largely put upon the market for sale.

The large decline in Pittsburgh Gas Stock is but the natural effect of the scare about competition. We think parties who are selling it below 80, will see cause to regret their haste. A. V. R. R. 7 30 Bonds have freshened up a little and sales are reported at 91 flat. Columbia oil stock holds steady at $30, at which we report sales of a small lot. The New York market is strong throughout the bond list, but weaker on railway shares as the quotations will show.

—The Philadelphia *Ledger* of Thursday says: There is a moderate inquiry for money at nearly all of our banks, and most customers are pretty generally accommodated. Those who are from their necessities forced to the street are compelled to pay pretty high rates. There are, however, fewer of this class than a fortnight ago, and the market in consequence is quoted comparatively easy. We quote call loans to first-class parties, on Government collateral, at 6 to 7 per cent., and to brokers and others on approved collateral at 8 to 10 per cent., 60 to 90 days' paper at 10½@12 per cent., and three and four months' paper at 12@15 per cent. Inferior paper is scarcely marketable. Call borrowers, with approved collateral, do not find much difficulty in getting all the money they want at our quotations.

NEW YORK, November 17, 1871.

The gold market was dull throughout the day with all business at 111⅛@111⅜. The rates paid for carrying were 1, 3 and 2 per cent., to flat for borrowing. Clearances $29,500,000. Governments strong and higher. It is noticeable that six per cent coupon issues are all above par in gold, some being as high as 1⅛@1⅜ premium. The cable reports a very strong market in London for securities, United States bonds selling at the highest price ever attained; 5-20s of 1862 are about one per cent. above par in gold. In general improvement the new United States fives have advanced to 1⅛ per cent. discount. There is a difference in the price in the '62s called in by the Secretary and those not called. The stock market at the opening was weak, but became strong before the first call; the most active stocks have been Union Pacific, which has risen nearly 2 per cent. since morning, and Western Union, Ohio and Mississippi, Lake Shore and New York Central. It is given out that the Pacific Mail party are manipulating the Union Pacific. Reading has been very strong, and it was rumored on the street that a fresh speculation is to be begun in Ohio and Union Pacific, and it has transpired that a considerable amount of the latter has been taken for Amsterdam account. The market at the close was heavy and lower, with the principal dealings in Wabash, Western Union and Union Pacific. Money very easy at 5@6 per cent., with a few exceptional loans at 4 per cent. Southern State securities on last call were lower in Tennessees, weak in new South Carolinas and generally steady in other bonds.

Sterling exchange 109⅛.

Dry Goods.

NEW YORK, November 17.—The change in the weather has caused a little more inquiry for woolen goods generally. The wholesale trade is devoid of animation, but with stocks comparatively light prices are pretty well sustained for all staples, while foreign fancy dress goods are being closed out at reduced prices. Atlantic A heavy brown sheetings are steady at 13c; Augusta do reduced to 11⅛c; Dwight Star do 14⅛c; Mystic river 11⅛c; Nashua R 12⅛c; do A 12c; Massachusetts I 10c; Atlantic L fine sheeting 12c. Waltham F 40 inch advanced to 13⅛c; Laconia 9 4 sheetings advanced to 32⅛c, and 10-4 do to 37⅛c. In other classes of goods there is no important change observed.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, November 17, 1871.

ASHES—Common Soda ash, 4 cts; refined do, 4⅛@4⅛; Pearls, 9⅛; Pots, 7⅛; Nitrate soda, 4⅛@4⅛.

APPLE BUTTER—Sales of prime to choice at 60@65 cts; fair to medium 50@55.

APPLES—Continue dull, and, while the receipts have commenced to fall off, the supply is still largely in excess of the demand. We continue to quote at $1@2 per bbl for common to fair, and $2,50@3.00 for prime to choice.

BUTTER—Prime roll is in demand and sells readily at 22@25. Common and medium continues dull, and can only be sold at low prices, say 10@15 cts.

BUCKWHEAT FLOUR—Is scarce and in demand; small sales, in store, at $4.25@4.50.

BROOM CORN—The receipts continue light and, as the stock is very much reduced, the market is reported firm at 8@11 cts. as to quality.

CARBON OIL—Is weak and lower; we reduce our quotations to 21⅛@21⅛ for standard brands, in car load lots—usual advance for small lots.

BEANS—Sales of fair to prime at $2@2.50 per bushel and choice at $2,75. Receipts continue to increase.

BEESWAX—Quoted at 30@33c.

CORN MEAL—Is very quiet and the demand is mainly of a retail character; may be quoted in small lots at 85@90 cts per bushel.

CEMENT—Louisville, $2.50@3.00 per bbl; Rosendale, $4.00@4.50; Calcined Plaster, $4,25@4.50.

CIDER—Is quiet and unchanged; regular sales at $5@8 per bbl, according to quality.

CRANBERRIES—Quoted at $12@13 for Jersey cultivated, and $17@18 for Sacketts.

CHEESE—Unchanged. Prime New York Goshen, 15⅛@16; prime Ohio Goshen, 15@15⅛; Factory, 14@14⅛; Dairy, 13@13⅛.

EGGS—The arrivals from all quarters continue very meagre, and while the demand is only moderate, fresh, in consequence of scarcity, sell readily at 30 cts. Pickled eggs, 23@25.

FLOUR—The market is steady, if anything, a shade firmer, although the demand is light and prices unchanged. Good spring extras, $7,00@7.25; good to choice red winter wheat, $7,00@7.50; choice Minnesotas, $7.75. Rye Flour, $5.50@5.75.

FEATHERS—No. 1 live geese feathers, 74@76 cts; to the trade; usual advance for small lots.

GRAIN—The wheat market presents nothing particularly new or important; while the receipts continue light, the supply seems to be fully up to demand; we continue to quote at $1.40@1.45 for fair to choice red and $1.45@1.50 for white. There is not as much difference made between red and white wheat as there was last year, which is in consequence of the fact that the yield of white is much larger. Oats quiet and unchanged—if anything, the feeling is a shade firmer; we continue to quote at 45@46⅛ for good mixed to prime white. Dealers generally regard Oats as good stock at present prices, and consequently they are not offering very freely, being apprehensive that they cannot be replaced within the next few weeks at the prices now prevailing. New Corn is in good supply and dull though unchanged; sales on wharf and track at 55@58, as to quantity and quality. Old Corn is dull and may be quoted at 67@68. Rye is steady but unchanged, 85@90, buying and selling. Barley is steady but unchanged; 80@85 for spring and 85@90 for fall.

GROCERIES—Coffee—We learn from the New York *Bulletin*, of Thursday, that the market in New York continues quiet, and that the dead-lock still continues. Holders, in view of the late news from Rio, refuse to offer goods except at full prices, but buyers fail to respond, they are still holding off. Jobbers, all over the country, stocked up pretty well prior to the recent reaction, and it is not likely that there will be any material improvement in the demand for some time to come. Sugars are steady but not quotably higher. Molasses, particularly old stock, very dull; we notice sales of new crop, New Orleans, (in New York) at 68@70.

SUGARS—Refined—Standard Hards, 13 A. 12⅛; B. 12⅛; Ex. C, 12⅛; C. Yellow, 12⅛, Porto Rico Sugars—Choice, 11⅛; Prime, 11; Good, 10⅛. Cuba Sugars, 10⅛@11. Demarara, 12⅛@12⅛. Sugar House Sugars—Knight's Extra C. Yellow, 11⅛; C. C. 11⅛; other grades, 9@11. New Orleans Sugars—None in market.

PITTSBURGH IRON MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, November 17, 1871.

The market for pig iron presents but little that is new or important. The receipts continue meagre, and with a steady consumptive demand, and very limited offerings, the most of that now coming forward having been sold to arrive, the market continues firm and prices are still tending upward. Standard forge irons, as will be seen below, brought $39, against $38, last week, and there is not much doubt but what $40 will be realized before another week rolls around. Now that navigation has been resumed, we may look for liberal receipts by river within the next few days, from Hanging Rock and Ironton, and while this may afford a temporary relief, it is not likely to have much, if any, effect on prices.

In regard to finished iron the market is devoid of any new characteristics. There is a steady demand and with light stocks and plenty of orders, the recent advance is rigidly adhered to, and in view of the steady appreciation in value of crude irons, a further advance is probable.

There has been an improved demand for Blooms within the past two weeks and with very light stocks, the market is firm and prices tending upward. No. 2 Juniata are selling readily at $85, and No. 1 may be quoted firm at $90.

The market for steel is active and firm with a demand equal to the capacity of all the works throughout the city. In view of the advance in the raw material, increasing the cost of production, the price of steel must go higher—on some goods, an advance has taken place already. The price of English steel has advanced considerably within the past thirty days, owing to the scarcity and high price of English and Swede irons.

Following is a report of the sales of metal during the week ending to-day:

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, November 17, 1871.

The crude market differs but little in any particular from that of yesterday. Spot or seller until January 1st, 10⅛@10⅛; buyer same time, 11⅛. Parker quoted at $4@4.02. We understand there are some crude buyers here from Wheeling and Parkersburg, but as yet, we are not advised of their having made any purchases. It seems that the stock at these points is very much reduced, and that West Virginia is not able, at present at least, to supply the demand. Refined is weak and lower; sale in Philadelphia of 4,000 bbls at 21⅛, the lowest notch it has reached for a number of years. In 1870, 22 was the lowest point reached and it did not remain at this figure long; at the same time crude was only worth about $3; to-day with refined down to 21⅛, crude is quoted at $4.

RIVER NEWS.

The river is falling slowly at this point with 8 feet 6 inches in the channel last evening. The Allegheny is falling at Oil City, and at last accounts the Monongahela was rising at Greensboro. The weather yesterday was cloudy and cold, with indications of snow.

Business was quite active at the landing yesterday, and it would have been better had it not been for the scarcity of tonnage. The wharf continues very slippery, rendering teaming very difficult, not to say hazardous.

The mammoth stern-wheeler John F. Tolle, Capt. Geo. D. Moore, is announced for New Orleans forthwith.

The Ironsides, of "Grey's Iron Line," is due to-day. She has been laid up at Wheeling during the low water season.

The iron propellor, built in South Pittsburgh, for Brown & Jones, of Memphis, by Douglas & Sons, was successfully launched yesterday. She is 75 feet long, 16 feet beam, and is to be employed in towing coal at and in the vicinity of Memphis.

The unexpected departure of so many boats has caused a scarcity of hands, particularly of firemen and deck-hands. Pumpers are now demanding $3 per day.

On Thursday, the Coal Hill, ascending, and the Tom Dodsworth, descending, collided near the foot of Glass House; two of the Dodsworth's barges were somewhat injured, not enough, however, to occasion any delay, and the Coal Hill was slightly damaged. It seems that the tiller rope on the latter boat became foul, and that, in consequence, she did not respond to the helm; she was backing at the time of the accident, otherwise the barges alluded to would doubtless have been sunk. Capt. Allabach, of the Coal Hill, was at the wheel at the time, and in his efforts to hold her, he sprained his back so badly as to incapacitate him from standing a watch as pilot.

Capt. R. J. Sinkle, Secretary of the Pilots' Society at Cincinnati, writes to Capt. W. H. Dorsey, Secretary of the Pilots's Society here, that the Newport bridge obstruction will not likely be removed for a week or more.

The Arlington did not leave Cincinnati until yesterday, being obliged to lie over and wait for water. She will be here on Monday and leave on Thursday. Freight will be recived for her at the wharfboat by Chas. Fairman.

The Juniata will leave Cincinnati for this port to-day.

The Julia left Zanesville for Pittsburgh yesterday.

James Hamilton and James Henderson pilot the San Juan to Cincinnati.

The Rover was due from Wheeling yesterday. She will take out a tow. Capt. Thos. Greenlee and James A. Stewart are her pilots.

Following is a pretty full report of the names of the pilots that went on the coal fleet: Blue Lodge—John Shouse, A. Ferguson. Dart—J. A. Harton, Jenkins. F. Wilson—Thomas Patterson, Wm. Humbertson. Joe Stone—A. J. Marsilliott, Sam Reno. Coal Hill—Thos. Morris, H. A. Bryan. Chas. McDonald—James Bevington. Grey Hound—John Bevington, B. F. Given. Coal Valley—Fred Briggs. J. S. Mercer—S. P. Black, Jos. Allen. Alice Brown—Thomas Campbell, C. C. Cable. John Penney—Geo. W. Conan, John McIntyre. T. D. Lane—Jas. Dickey, Marsh Hays. Eagle—Thos. Evans, Wm. D. Reno. Keystone—Sam Erwin. Tiger—Will. Stewart, J. B. Jones. Brilliant—Geo. W. Moore, Crate Reno. Baltic—Chas. W. Mary, Mark McCormick. Gipsey—H. McClusky. Resolute—Jesse Nannah, Sam Fowler. Hawk—W. Oakes, Jesse Smith. Leader—Noah Potts. Sam Parker—Thomas Potts, James O. Wood. Lion—W. J. Parr, A. H. Parr. Tom Lysle—John P. Reagon. Bengal Tiger—A. D. Reno, Sr., A. D. Reno, Jr. Sam Roberts—Doc. Reno, John B. Reno. Tom Rees—W. Q. Shrodes. Panther—John R. Verner. Stella—Abe Willard, Jacob Mangers.

—A St. Louis special to the Cincinnati *Commercial* furnishes the following items: Mr. John H. Morris, long and favorably known as steward of the Belle of Memphis, went out last evening in the same capacity on the Marble City. Captain Dunlevy, of the Esperanza, was a visitor on 'Change yesterday. He has not yet decided where he will load his boat for next. The Mary McDonald, up from Vicksburg, goes on the docks, having seventy broken timbers, and being otherwise damaged by shipping a snag below Memphis. Her timbers were broken on the down trip, at Tower Island. Captain Nat. S. Green arrived from Memphis, and will take out the Richmond in a few days. The Great Republic came to the wharf this evening, and departs for New Orleans on Friday, looking handsomer than ever.

—The St. Louis *Republican*, commenting on McCoy's Line, says: The talk now is that a "Red Hull Line" of steamers will be put in the trade between Nashville on the Cumberland, and Cincinnati on the Ohio. Between the Red Hull Line and the White Collar Line the Cumberland River people will have ample facilities for the transportation of their produce, and competition will doubtless make rates very favorable to shippers.

—Rates were reduced at St. Louis on Tuesday to all points south, and now rule as follows: To Memphis, flour 50c, pork $1, whisky $1,50 per bbl, and pound freight 30c per 100; to Vicksburgh, flour 60c, pork $1, whisky $1.75 per bbl, and pound freight 35c per 100; to New Orleans, flour 65c per bbl, pound freight 35c per 100, and everything else in proportion.

—The canal will be opened next Monday, but only such sized boats as can pass through the old locks will be benefitted for the present, as it will take several weeks to get out the mud and prepare the new locks so that large boats can pass through that channel.

—An Evansville telegram, under date of Wednesday, says: The steamer Mattie, a small job-boat, struck a snag at Striker's Landing, near Owensboro, on Saturday night, and sunk in water three feet over her main deck, and is being wrecked. Valued at $4,000 and reported insured for $3,000.

—The Evansville Boatmen's Association recently resolved to abolish monthly dues, to make the uniform initiation fee one dollar, and that the assessment on tonnage at five cents per ton, and on barges at two and one-half cents per ton, total measurement. J. N. Silvertnorn was elected Secretary of the Association.

—At St. Paul preparations are being made for closing the business for the year, and we hazard nothing in saying that when the accounts are made up there will be a very unsatisfactory amount of river business transacted for the season will be reported.

—The Wabash river bridge and approaches on the St. Louis and Southeastern Railroad consists of 1,100 feet of Howe's truss, spanning the river, and 1,400 feet of "pile trestle" on each side, equivalent to a bridge of 3,900 feet.

—Capt. Joe. W. Cheesman has sold his interest in the Maysville packet St. James to Pearce, Wallingford & Co., of Maysville.

—Commodore Jas. S. Wise has been elected Superintendent of the Cincinnati, Louisville and New Orleans Packet Company.

HOME NEWS.

Women's Christian Association.—The fourth annual meeting of this association will take place at the Third Presbyterian Church, Sixth avenue, on Sunday evening, Nov. 19th, at 7:30. The reports of the Association, and of the "Temporary Home on Chatham street," "Home for Aged Protestant Women," and "The Sheltering Arms," will be read, and Rev. H. H. Hornblower, D. D., will deliver an address. A full attendance earnestly requested.

A Meeting of the Fire Brick Manufacturers was held on the 16th, at the office of S. M. Kier & Co. A large representation was present and a very full expression of views was had. The universal opinion was expressed that at present rates there was no money in manufacturing the ordinary quick brick. An organization was effected by electing Isaac Reese, President, and S. P. Harbison, Secretary, and an advance of five to seven dollars per thousand agreed upon.

We have received a number of letters from our readers on the subject of the new school house for the First ward, Allegheny. We shall not have room for all of them. We direct attention to the one in this morning's issue from the pen of Mr. A. F. Marthens, which appears to cover the whole ground of dispute. Let the present school house be examined by competent persons, and if found to be unsafe or not suitable for the purpose, the questions now agitating the ward can easily be solved. No one will oppose a new school house, if one be needed; and if the present one answers the purpose, we cannot see why the expense of a new one should be incurred.

Littell's Living Age, being published in weekly numbers of sixty-four pages each, gives more than *three thousand* double-column octavo pages of reading matter yearly, and is thereby enabled to present with a *satisfactory completeness*, nowhere else attempted, whatever is of immediate interest or permanent value in the vast and generally inaccessible mass of foreign periodical literature,—a literature embracing the productions of the ablest living writers in every department, whether relating to history, biography, fiction, poetry, wit, science, politics, theology, criticism or art. As a fresh and *thorough* weekly compilation, therefore, of the admirable and noteworthy in current literature, including the ablest and most interesting essays, reviews, serial and short stories, poetry, scientific, historical, and political information, it has become invaluable, in the great and growing multiplicity of quarterlies, monthlies, and weeklies, to every person or family of intelligence and taste. The highest critical authorities of the country unite in pronouncing it "the best of all our eclectic publications."

The publishers offer some extra inducements to subscribers who may wish to club with other leading periodicals; and we recommend a careful examination of their prospectus, published on first page.

The Fire Last Night.

The alarm of fire last night about eleven o'clock from box 16 was occasioned by the discovery of flames issuing from the cellar of Shattuck & Whitten's vinegar manufactory No 146 Water street. When the firemen arrived on the premises they found the flames to proceed from a pile of cooper's shavings in the cellar just under the grating. The fire was extinguished in a few minutes.

No loss. The origin of the fire is unknown.

Youthful Scamps.

Yesterday afternoon a couple of colored boys entered a meat shop on Beaver avenue, Allegheny, near Locust street, and in the absence of the proprietor, were going through the till when they were observed by the proprietress who rushed out and siezed them. They dragged her out to the pavement and then knocked her down by which means they were enabled to escape. Subsequently they were arrested and locked up, when they gave their names as Lyman Trauttman and John Brittion. They will have a hearing this evening.

Homestead.

It will be seen by reference to our advertising columns that the Homestead Bank invites proposals for excavations and stonework for a number of buildings to be erected in this promising suburb. We are informed that the Company has applications for nearly a hundred houses to be furnished by spring and early summer, and an equal or greater number of lot owners purpose building for themselves. Altogether, the prospect is good that Homestead will be rather a lively place as soon as the P. V. & C. R. R. is in operation, and that is promised soon.

Accident by Falling.

A man named Nathaniel Dent met with a painful accident yesterday morning about nine o'clock, at the "incline" or coal railway of Messrs. Robson & Campbell, above lock No. 1 and Second avenue. He was hitching a coal-car at the top of the incline (technically called the "knuckle") when he missed doing so in some way, and was carried by the car over the knuckle. He fell full thirty feet head foremost, striking on his head and shoulders. He was painfully injured about the head and bled internally for a time. He was taken to the Homœpathic hospital and is now in a fair way for recovery.

Coroner's Inquest.

Coroner West yesterday morning held an inquest on the body of a child that died suddenly at the house of John Cromer, corner of Penn and Twentieth streets. The child was found to be an infant named Thomas Joseph Stang, two months old, and the son of Mrs. Mrs. Annie Stang. It seems that the mother who is in destitute circumstances, same to this city a short time since, from Memphis, where she had just come out of the hospital, and has been stopping at Mr. Cromer's. Night before last the child went to sleep apparently well, and yesterday morning it was dead. Dr. Snively examined the case and came to the conclusion that death resulted from pneumonia, and the jury returned a verdict of death from natural causes.

Helped Himself.

Nothing like a man helping himself. Some of Allegheny's small-pox patients think so. Yesterday Health Officer Williams received a notice from a Teuton whose signature was Nicholas Schmitt, begging that the ambulance be sent around to carry him to the hospital. The request was properly complied with but when the—pest-cart was drawn up in front of the Schmitt mansion, the patient surveyed it silently for a moment, and then his scorn was expressed in a forcible way, with Teutonic and Anglo-Saxon profanity unequally blended, which wound up with an abjuration on his soul if he would ride in such a conveyance. The ambulance was accordingly taken back, and Nicholas proceeded to the depot, purchased a ticket, and rode in a palatial West Penn Railroad car to Claremont, where he disembarked, and is now numbered among the inmates at the hospital.

Dean Literary Society.

The second meeting of this Society was held in the chapel of the High School, on Friday afternoon. The following was the order of exercises: Music by Mr. Kramer; essay, entitled "No Cross no Crown," by Miss Mackrell; declamation, "Parody on Excelsior," by Mr. E. Hill; essay, subject "The Beauties of Nature," by Miss Durning; Mr. Wm. A. Black delivered an original oration on "Mystery"; Miss Laura Moon entertained the audience with a song, entitled "Sweet Spirit"; Miss Clara Cargo read an essay on "Rowing Against the Current"; Mr. Walter Wrigus recited a selection, "Bardell ver-us Pickwick"; Miss Lide Shore read an essay, entitled "Things That Are Denied Us"; this was followed by instrumental music by Miss Cappell; the subject for debate was "Does Professional Life Offer Greater Inducements to Young Men than a Business Life?" Messrs. Hoffman and Montgomery taking the affirmative, and Messrs. Fownes and Mead the negative. The exercises were concluded by a song by the Misses Cargo, entitled "In that Land Over There". The exercises throughout were of a superior character, and showed that much care had been bestowed on their preparation.

THE NEW CITY HALL.

Ready for the Furniture—Council Meeting Called.

The new City Hall is rapidly approaching completion, and that part of it designed for the use of the city officers will be ready for occupancy by the latter part of next month. The matter of its furnishment came up for consideration at a meeting of the Committee on City property yesterday, when it was decided to ask Councils to meet in special session on Tuesday next, to appoint a committee to attend to the matter. The business is of some importance, as the offices must be ready by January 1st, 1872, when the lease of Wilkins Hall, where the city offices now are, expires. The City Hall Commission are also desirous that their accounts be finally audited by a committee of Councils as provided by law. They have a balance sufficient, it is thought, to thoroughly furnish the new Hall, which they desire to turn over to any committee appointed to attend to that business.

Hence this Committee agreed at their meeting resolution upon a resolution asking the President of Councils to call a special session to appoint these committees.

SMALL-POX IN ALLEGHENY.

Fifty-three Cases During the Week—The Hospital Filling Up—The Disease in the Penitentiary.

Whatever may be the case elsewhere in the community, the small-pox in Allegheny, judging from the Health Officer's report, is not rapidly decreasing in the number of its victims. During the present week up to last evening fifty-three cases have been reported to that official. Thirteen of these are now provided for in the hospital at Claremont, and five other patients will be sent up to-day. There is capacity at the hospital for thirty patients, and at present rates the building will soon be pretty fully occupied.

The disease, caring not for stone walls and prison bars, has at last invaded within the precincts of the Western Penitentiary. Yesterday the Health Officer was notified by Dr. Duncan that two of the prisoners had been attacked with it. It was at first proposed to remove them to the hospital, but investigation showed that every precaution had been taken at the Penitentiary to prevent the spread of the disease, and the patients were receiving every possible attention.

The authorities also were of the opinion that the patients could not be taken from the prison to which they had been sentenced. The Board of Health is now in good working order and everything possible is being done to prevent the spread of the disease in the city. The people would materially assist in this work if they would adopt the only infallible method—*vaccination*.

MURDEROUS ASSAULT.

Attempt to Assassinate Mr. John W. Pittock—The Would-be-Murderer in Custody.

About six o'clock last evening, an attempt was made upon the life of Mr. John W. Pittock, newsdealer, and senior partner of the firm of Pittock, Nevin & Co., of the *Leader*, and from all the circumstances of the case, we are convinced that the failure of the would-be-assassin to accomplish his murderous purpose resulted from an unsteady aim rather than from a relenting heart.

It appears that about five o'clock P. M. a well dressed man of about forty years of age, wearing a drab overcoat, steel colored pants, slouch hat and low shoes—we are thus minute in describing his dress, because we are not positively advised as to the man's name—entered Pittock's book store and asked if Mr. Pittock was in. The proprietor presented himself, and the individual above described laid his hand familiarly on Mr. Pittock's shoulder and said—"Come out and take a drink." Mr. P. informed him that he could not accept his invitation. The man then asked Pittock where he would find him in half an hour. Pittock replied that he would be in the store. The stranger then departed, and in about half an hour he returned. This time he walked to the rear of the store and told Mr. Pittock that he wished a private interview, asking him if he had a private office. Mr. Pittock replied in the negative and gave the man a chair, at the same time seating himself in close proximity to his unknown visitor. The stranger opened a conversation by asking Mr. Pittock if he had ever been up the Monongahela river, stating that he was well acquainted along that stream. Mr. P. answered in the affirmative, and they conversed for several minutes about mutual acquaintances. At length the stranger—who by this time had made known his name as Robison—drew a Smith & Wesson revolver from his pocket. The weapon was cocked, and Robison let the hammer down carefully. While doing so, he said: "Pittock, I find you are a gentleman; you have treated me kindly. I came here to take your life, and if you had not turned out to be a gentleman and treated me as you have done, I would have shot you." Mr. Pittock became alarmed at the strange conduct of Robison, and rose to his feet. Robison told Mr. Pittock that he need not be alarmed, and hoped he would permit him to leave. Mr. P. told him that the way was clear and that he did not care how soon he departed. Robison then left the store, but returned within ten minutes, and, walking back to where Mr. Pittock was standing, said to that gentleman that he would like to have a few minutes conversation with him. At this time the two men were standing very close together, probably within a foot of each other. By a sudden movement Robison drew his revolver, which was already cocked, and fired. The ball passed over Mr. Pittock's head and took effect in a few books on one of the shelves. The missile certainly came within two inches of the top of Pittock's head. Before he had time to fire another shot, Robison was seized by several bystanders, who quickly disarmed him. He was subsequently given into the hands of the police, and was placed in a cell at the Central Station House, where he now awaits an examination.

A reporter of the GAZETTE held a brief conversation with the prisoner last evening. He stated, in reply to an inquiry as to why he had attempted to shoot Mr. Pittock, that he was crazy, and did not know what he was doing. Afterwards he gave a pretty correct statement of the whole affair. He said that when he first entered the store he had no pistol, but that he went and bought one as soon as he left. He says that after he had procured the weapon he went into the store for the purpose of shooting Pittock, but he could not tell why. He pretended to recollect but little about the last visit. He said he went into the Fifth Avenue Saloon and got full of whisky, and at the time of firing the shot he did know what he was doing.

To officer Moon he stated that he had shot at Pittock with the intention of killing him, and that he would kill him if he got a chance. He also told the officer that he resided with a nephew, on Isabella street, Allegheny, and that he lately came from New York. On a bunch of keys found in his pocket was a plate bearing the inscription, "R. A. Robison, 13 Water street, New York."

That there was a deliberately formed intention on the part of Robison to kill Mr. Pittock, there can be no doubt. His motive for doing as he did is as yet a mystery. A hearing in the case may serve to throw some light on the matter.

From memoranda in a book belonging to Robison, it appears that he has been engaged in the coal and coke business on the Monongahela river and along the line of the Connellsville Railroad.

A CONFIDENCE MAN CAGED.

Two Sharpers Victimize an Allegheny Saloon Keeper—He Discovers the Game in Time to Arrest One of Them—Disappearance of the Other.

One of that peculiar class of humanity known as confidence men, whose operations in this vicinity of late have been so frequent and so successful, is now in confinement awaiting a hearing, upon a charge of victimizing, with the aid of an accomplice, an Allegheny citizen, to the extent of $151. He gives his name as William Wolf, and states that he is a resident of New York. The following seem to be the circumstances that caused a deficiency to the above extent, in Mr. Adam Michaels' cash pile, and which also caused the arrest of Wolf: On Wednesday evening Wolf's companion, whose name is not known and who is still at large, called at Michaels' and secured lodgings for the night. In conversation he informed Mr. Michaels that he had rented the storeroom near by, and proposed opening a clothing establishment. He said he had a large stock of goods en route to the city, and had also some six or seven boxes of imported goods, upon which the custom house had not been paid. He was exceedingly anxious to secure the goods, but he had exhausted his ready cash in making the owner of the building he had rented secure. He had no acquaintances in the city from whom he could borrow, and he was afraid he would be compelled to wait for some days before he could obtain a remittance from his friends. While Mr. Michaels expressed considerable interest in the man's story, yet the matter was allowed to drop here for the time. It was perhaps a half-hour afterwards that Mr. Wolf came in and called for supper. After eating he went into the room where Michaels and the "clothier" were seated, and the latter immediately resumed the conversation about "those goods." Wolf very promptly became interested, and made several suggestions how they might be obtained. Finally turning to Michaels he remarked that he had money in a bank on Wood street, and would draw a check for the amount in favor of the anxious merchant if Mr. Michaels would cash it. Mr. M., said he would cash the check early in the morning, and then he could receive his money back as soon as the bank was open. Mr. Wolf was satisfied and so was the clothier, and the two remained at the house over night. The check was cashed next morning, and the merchant started to Pittsburgh to settle the claim, and some time afterwards Mr. Michaels and Wolf started over, Mr. M. wanting to get his money out of the bank. Wolf had an engagement at the Union Depot where they first went, and he purchased a ticket for New York. After stopping in several pawnbroker shops, he remembered another engagement at the Eagle Hotel. Here he attempted to give Mr. M. the slip by going through a back door, but that gentleman's suspicions being aroused, he collared the man just as he was escaping through an alley way, and, a police officer refusing to arrest the man, he accompanied him himself to the Allegheny lock-up, where he is now incarcerated, an information having been made against him. The other man has not since been seen.

THE WATER COMMISSION.

Meeting Yesterday Afternoon—Organization Effected.

The new Water Commission held their first meeting at the Mayor's office yesterday afternoon. All of the members were present.

The object of the meeting being to perfect an organization, the election of a President was proceeded with, resulting in the choice of Mr. D. W. C. Carroll.

The election of a permanent Secretary was postponed for the present, the question of the eligibility of members of Council to that of fice having been raised and the members of the Commission being desirous to have an opinion on the subject from the City Solicitor. Hill Burgwin, Esq., was appointed Secretary *pro tem.*

The two following extracts from the City Digest seem very plainly to render any member of Councils ineligible to this office, but the action of the Commission will, of course, be based on the opinion of Mr. Slagle. Following are the extracts referred to:

ACT OF CONSOLIDATION, APPROVED APRIL 6, 1867.

Section 7. "No member of the City Council shall during the term for which be shall have been elected, be appointed to any municipal office, not for one year thereafter *to any office which shall have been created*, or the emoluments of which have been increased *during the term for which he shall have been elected.*"

SUPPLEMENT TO ABOVE ACT, APPROVED APRIL 1, 1868.

Section 13. "The 27th section of the said act of Assembly of April 6, 1867 shall not be so construed as to prohibit the appointment or election of a member of Council *to any office which shall NOT have been created or its emoluments increased during the term for which he shall have been elected to Council.*"

VIOLENCE AND ROBBERY.

Foot-pads Relieve a Merchant of his Valuables on a Public Street.

Night before last a prominent oil merchant of this city, was assailed at an early hour, upon a public thoroughfare, knocked insensible and then robbed. The gentleman referred to was passing along Duquesne Way, a little before nine o'clock and when near Garrison's alley was suddenly confronted by a robber, who, without a word seized him by the throat. Almost at the same instant an accomplice sprang from the shadow of an adjoining building and dealt the gentleman a blow from behind, knocking him senseless to the ground. How long he lay in that condition the gentleman does not know, but when he came to his senses he discovered that he had been badly hurt, robbed of his money and watch and then placed in the shadow of the building, so that the casual passer-by might not observe him. He crawled to the bridge, where he received aid and was taken to his home. The property taken from his person consisted of a gold watch worth from three to four hundred dollars, a chain of eighty or ninety dollars value, and about $300 in money. No clue to the perpetrators has yet been obtained.

LAWRENCE VS. BUTLER.

Suit Relating to Bonds—$87,000 in Dispute

Among the cases in the Supreme Court yesterday was that of Lawrence Co., vs. Butler Co., which is deserving of more than a passing note. This is a case wherein Lawrence desires to replenish it exchequer, with about $87,000 which it alleges Butler county should pay. The grounds of the claim are found in certain transactions in which the counties were engaged several years ago, in connection with the building—or attempted building (for it was never completed)—of the North Western Railroad. It seems an act of the Legislature passed in 1853 authorized the building of this railroad to run between Blairsville and New Castle *via* Freeport and through a part of Butler and Lawrence counties. For the furtherance of the enterprise Butler county subscribed $250,000 and Lawrence $200,000, to be paid in county bonds. The work was commenced, a part of the road built and the bonds issued when the contractors, Messrs. Malone, Painter, Clark and Gonder, became insolvent and could not proceed with their contract. They had been working from June, 1854 to August, 1856, and in that time were paid $185,500 in Butler bonds and $147,000 in Lawrence bonds, making in all $332,500. When they failed they were in debt to sub-contractors $265,000. A conference was held and the contractors agree to restore the bonds on the condition that the sub-contractors were paid by the Company, which was done, and the bonds were restored. Thus the Railroad Company and the contractors settled their difference. Then came trouble between the counties and the Company, which held the counties bonds. It appeared that in direct violation of their agreement, the Company had been selling the bonds below par, and the counties were thus privileged by the subscription contract to cancel them if they so desired. They availed themselves of this right and called upon the Company to produce the bonds for cancellation. The Company had already used a part of them in paying the sub-contractors on the road according to their agreement with Malone & Co. But finally after considerable engineering the bonds of Butler county—except $65,000 worth which had been used. They refused, however, to return any to Lawrence county, but used them it is alleged in continuing the payment to the sub-contractors.

Assuming then that the enterprise was a failure, in which the subscribers lost money, it was claimed that each county should pay a portion of the loss in proportion to their subscriptions. Lawrence complains that this was not done, but that about $87,000 worth of Lawrence bonds were used, more than was the proper portion for that county to pay—in other words Lawrence claims to have been compelled to pay this amount above its share, and charges collusion on the part of Butler county and the railroad company to impose this unjust payment. Hence suit is brought to recover the amount from Butler county.

Butler county's answer to this complaint in the main is that it was not a partnership between the counties; each stood as an individual subscriber. Then, if Butler county succeeded in getting its bonds restored, and Lawrence county did not, Butler county should not be compelled to pay for the negligence or want of shrewdness on the part of Lawrence. The case was decided in the Court of Common Pleas of Butler county last June in favor of Butler. From this an appeal was taken to the Supreme Court, and yesterday the argument came on, Mr. R. B. McComb appeared for Lawrence and James Bredin for Butler.

THE *Eastern Argus* alluded to an eminent citizen as "a noble old burgher, proudly loving his native State;" which neat little compliment came from the compositor's hand reading, "a nobby old burglar, prowling around in a naked state."

ABOUT three o'clock yesterday morning two ladies, accompanied by a gentleman, were returning along Sixth street from a party when they all slipped and fell, injuring one of the ladies' arms seriously.

YESTERDAY John Johnson, a colored man, employed to remove a quantity of bedding from a house on Liberty street, Allegheny, where a small-pox patient had laid, threw it into the river at School street. It floated down and lodged upon the sand-bar, which was soon perceived by the people in that locality, and the Mayor notified. The Health Officer had it removed and burned, and their fears were quieted.

WE ACKNOWLEDGE the receipt of a kind invitation to attend the annual ball of the "Oil City Greys, N. G. P." which is to take place on Thanksgiving eve, 29th instant, at their Armory at Oil City. We regret that our services are already tendered and accepted at an annual turkey dinner, on the day following that mentioned above, and we fear that if we got among such good fellows as Owston, Young, Greer, Hays, Hawkins, Vandergrift, Burchfield, and "them onner fellers" who hang out their shingles in Oil City, we would not be able to tear ourselves away for the dinner. Under other circumstances we would be on hand sure. Many thanks, gentlemen, and may you have a rare good time.

In the case of S. B. Hildebrand, a bankrupt, the court delivered an opinion overruling the decision of Register Detwilder, of the Fourteenth District, in the matter of the proof of claim of John Wright a creditor. Wright, it seems, had accepted a preference, but upon learning the provisions of the bankrupt law and acting under the advice of counsel, had surrendered his preference—notes and other property—and thus brought himself within the provisions of the twenty-third section of the act, which gave him the right to prove his claim, having surrendered the preference.

SHOOTING AFFRAY.

Officers Fired Upon—The Shots Returned—Two Men Wounded.

Shortly after twelve o'clock last night Lieutenant David Campbell and officer John Hood were proceeding along Water street when they observed a man making rather disorderly demonstrations in front of Kellar's saloon, a few doors below Wood street. Lieutenant Campbell ordered him to proceed but the fellow seemed to pay no regard to the command and continued his manifestations of a war-like spirit. The order was repeated and finally, at the third command the man moved away five or six paces and then deliberately turned and drawing a revolver, fired three successive shots at the officers. He then started to run, followed by the officers who ordered him to halt, but he seemed determined to make his escape, and so Lieutenant Campbell after again calling on him to halt, drew his revolver and fired three shots after him. After this he slackened his speed and the officers succeeded in overhauling him in a short time. After being caught he made a fierce attempt to get away, resisting the officers, and attempting to again draw his revolver on them. It was only with the aid of two or three citizens that his weapon was taken from him, and he was finally placed in a cell in the lock up, having on his person several marks, that were sufficient evidence of the folly of being at enmity with the law.

When the excitement had somewhat abated Officer Hood discovered a wound upon his left wrist, which seemed to have been caused by a ball, although the excitement at the time was such that he does not know whether he was struck or was injured while bringing the man to the lock-up. About the time the prisoner was placed in a cell, an old German came into the office exhibiting a face and breast covered with blood from a flesh wound on his left cheek of considerable extent. He gave his name as John Snipper, and in pitiful tones said in broken English that he had been helping the officers.

It afterwards turned out that the man arrested had been ejected from the saloon in front of which he was, by John Kellar, the proprietor, for misbehaviour. His name, which he refused to give at the lock up, is unknown, though it is thought he is from Johnstown. At the station house the revolver taken from him was examined and found to contain three loaded and three empty chambers.

The prisoner is a man perhaps forty years of age.

The Grand Central Hotel, N. Y.

This magnificent building, on Broadway, New York, has now been in running order for about a year, under the proprietorship of Mr. H. Lyman Powers, and during that short space of time has achieved a reputation second to that of no other hotel in the country. Two years of incessant labor and the expenditure of two millions of dollars, the proprietor says, were required to complete and furnish his splendid and extensive marble palace, and the building bears on its front the proof of it. Its immense facade covers the site formerly occupied by six large edifices, colonnaded and balustraded, and towering six stories high, with a pavilioned French roof rising two stories higher. Within doors the hotel presents a freshness of appearance, a perfectness of appointment and an Eastern splendor of fitting and finishing, in strong contrast to the dullness of most of its rivals. It commenced its business at the very outset on a scale of magnificence seldom or never surpassed, making a complete innovation on prices, and leaping with one bound into the first place in public favor. It combines all the elegance of the most fashionable hotels with the comforts and ease of the most domestic, at rates that are in pleasing contrast with the ruinous charges of many other hotels. The patronage it has secured has been commensurate with all these advantages, and has placed the Grand Central Hotel in the foremost rank of the world's successful enterprises.

SEVERELY INJURED.

A "Dumb Waiter" Falls on a Man's Head and Nearly Kills Him.

About two o'clock yesterday afternoon a young man named Augustus Ohlenhausen, employed as barkeeper at the Woodbine saloon in Diamond alley, met with a painful accident. Carpenters had just completed a "dumb waiter," and had suspended the waiter with a small rope for the purpose of testing it. While it was at the height of about eighteen feet above the floor of the bar room Ohlenhausen went directly beneath it for the purpose of running it down. While in that position the rope broke and the waiter fell, striking Mr. O., on the head, inflicting a frightful gash in the scalp near the right ear, and knocking him down on the floor, where he lay for some time in a state of insensibility. The unfortunate man was carried to his room, where he was attended by Dr. Walters. The waiter which struck him on the head will weigh about forty pounds, and that the man's skull was not fractured seems little less than a miracle. The wound, although quite severe, is not of a serious character.

Prince Albert.

A beautiful quality of Black Alpaca, imported by a leading Philadelphia house, and bearing the above name, is worthy the attention of our lady readers, and all who purchase this desirable and cheap fabric for dresses and suits. They have already become widely popular in the East, and we believe them superior to any other make of Alpaca. The main point of excellence is their beautiful shade and texture, and, being finished so perfectly on both sides, they admit of being turned after long service, without loss of color or freshness. Our attention was drawn to these goods at Messrs. J. B. HEARD & CO'S., who are introducing them in this market. We were shown very pretty qualities at thirty to fifty cents. WFS.

WE hear of a man who was more than a millionaire the day before the Chicago fire. He had five houses and two stores burnt up in that terrific conflagration; a large line of stocks, which he was carrying in the Wall street Exchange, were swept away from him in the panic that ensued. He has purchased a case of Pier, Dannals & Co.'s cream ale, and says that with five years of health he will win all his losses back again.
